BUILT TO LAST A HUNDRED YEARS

We aren't afraid to say our standards are high. Premium quality materials and exceptional service experiences are the cornerstones of Rockstar's business philosophy. But we aren't just building buildings - we are building a legacy. One that we hope will carry on long after we are gone. And this focus on longevity drives each and every decision we make. We build *things* that last, and *relationships* that endure. With Rockstar Welding, you won't get just 99.9%. You get 100% every day for 100 years.

DIFFERENTIATORS

- In-House Fabrication Shop & Mobile Welding Crews
- Large 10' x 10' x 30' Powder Coating Oven
